

Doctoral Seminar

DESIGNING DESIGN SCIENCE RESEARCH

Robert Winter (University of St. Gallen, Switzerland)
Ali Sunyaev (ITeG, University of Kassel, Germany)

August, 16 - 18, 2017

ITeG | Research Center for Information System Design | Kassel

Robert Winter

This seminar will be chaired by Robert Winter from the University of St. Gallen and focuses on planning and conducting design science research. It is organized by Ali Sunyaev (ITeG, Kassel) and is intended for PhD students in Information Systems.

The goal of the seminar is to provide students with insights into how to plan and conduct design science research. To achieve this goal, students will engage in a number of activities in preparation and during this three-day course, including lectures on design science research, presentations of their own work, and in-class discussions. The course format offers an interactive learning experience and the unique opportunity to obtain individualized feedback from leading Information Systems researchers and fellow PhD students on current PhD projects.

With respect to the intended learning outcomes, the course puts design science research, rigor and relevance in focus of all steps of the research process.

OPEN TO ALL: Three lectures on design science research

(R: 0420, ITeG Research Center, Pfannkuchstr. 1, 34121 Kassel)

Aug-16 / 10:00 - 12:00 / Faculty Talk

Establishing Architectural Thinking in (Large) Organizations

Aug-16 / 15:45 - 17:45 / Lecture

Requirements Analysis and Evaluation in Design Science Research

Aug-17 / 11:00 - 13:00 / Lecture

Contributing to the Scientific Knowledge Base with Design Science Research
